

Domain 4

Now Open for Registration

Domain 4, the latest development in NeoCyber, was officially launched on 18 December 2010. Since the launch of the initial phase, Domain has received very good response and investors who bought the units have earned an investment yield of up to 8% per year.

There is definitely demand for residential units in Cyberjaya. Nowadays, people are looking to stay and work out of Kuala Lumpur, and Cyberjaya is a good

choice of area for them. NeoCyber stands out from the other development areas in Cyberjaya because it is the first integrated area in Cyberjaya providing shops, restaurants and offices in the vicinity of the residential units.

Domain 4 offers a total of 120 units with different types of built-up design. So far, the most popular design that is in great demand is the duplex unit.
